## TRADE-IN VALUE PROTECTION FOR YOUR VEHICLE

Did you know that when your vehicle is involved in an accident, it's trade-in value could decrease up to 30%? Even if damage is properly repaired or the accident was through no fault of your own, the potential loss in value can be significant. Protect yourself and your budget from the potentially diminished value of your vehicle with Value Protection.

### HOW VALUE PROTECTION WORKS

### COVERAGE BENEFITS

Provides you the option to trade-in your vehicle to the selling dealer for a credit of the guaranteed repurchase price toward the purchase or lease of another vehicle.

#### DIMINISHED VALUE BENEFIT

The calculation of the selling dealer's offer may be affected by the demand for the vehicle and/or the diminished value of the vehicle resulting from a reported accident. In consideration for your payment of the option purchase price, if you reject the selling dealer's offer, the selling dealer agrees to provide you with the option to trade-in your vehicle for the guaranteed repurchase price which may be calculated in consideration of the maximum diminished value benefit and the verified repair amount, where applicable.
